Our Service & Technologies

Laputa will leverage the technology of Salesforce.com platform to provide viable solutions to our customers. In fact, Salesforce.com is a global top rated SaaS company which provides tailor-made solutions to meet each customer's business need. SaaS is a unique market in the Greater China Region and is probably one of the largest untapped market for this technology worldwide. SaaS will be the forefront of technology adoption and growth in China over the next several years.

Laputa will analyse the clients' key business objective and utilize Salesforce to help resolve critical business issues they currently faced. The goal is to leverage the team's industry and product knowledge to come up with a viable long term solution for the customer. Previously employed at Salesforce.com, Laputa team has a first-hand knowledge on Salesforce.com latest solution offering as well as a proven on-the-ground experience. Our team can provide a high value-add with our industry experience as well as deep product knowledge of Salesforce.

The Force.com cloud platform makes building applications faster and easier than ever. It includes a database, security, workflow, user interface, and other tools that step you through the process of building powerful business applications, Web sites, and mobile applications.

Laputa will also provide Salesforce Administration Outsourcing to our customers on an annual subscription basis. Laputa can leverage on the SaaS model of Salesforce.com to deliver this service remotely in a highly secure environment. Laputa will offer training service to the Salesforce administrators on a quarterly basis. Elite Support Service allows Salesforce administrator to maintain their Salesforce application with peace of mind. Laputa Technologies Elite support service is designed to give customers administrative assistance for your users to save valuable resource time and effort.
